

# Heatherwood School

May 2017

## A word from our Principal, Mr. PAUL HILLS

It is with great sadness that I want to inform the school community of the passing of Judy Davis after a long illness. As a staff

member, Judy worked extensively in the Homecrafts and Hospitality areas. She started the Certificate I in Hospitality course at Waverley Industries and held a strong belief in supporting and encouraging students to develop and then extend their cooking and independent living skills.

### Just a reminder..

**that Monday 5 June is a Curriculum Day.**

All staff will be involved in the day led by Bryan Jeffrey - Director of MOAT Mental Health Services.

Every year, students at Heatherwood have the chance to provide feedback through the Department of Education and Training 'Attitudes to School' survey. This is a very good opportunity for us to understand how students feel about the way we provide teaching and learning, how they feel about friends and classmates, and also their wellbeing and safety. This year the survey is being delivered online and will be conducted over the next three weeks.

The **Debutante Ball** is drawing closer and will provide a great opportunity to celebrate with families and friends the growth into young adults of our Senior students. For everyone involved the excitement is growing.

**Thank you for your ongoing support and involvement.**

**ALL payments relating to the 2017 Debutante Ball were due by 31 May.**

**Any queries, please contact the School Office.**

## Extreme Hair Colours

Parents/Carers/Guardians please be aware that extreme hair colours and/or extreme hair styles are not permitted at Heatherwood School, as outlined in the School Diary.

Students have been informed of this and have been asked to adhere to the school rules and dress code.

**Please make sure all your students' clothing is clearly labelled with their name.**

Sadly, there are many items of uniform we cannot return to the rightful owner.

Date	Event
Mon 5 Jun	Curriculum Day ~ Monday 5 June <i>Students do not attend</i>
Mon 12 Jun	Queen's Birthday Public Holiday <i>Students do not attend</i>
Tue 13-Fri 23 Jun	Year 10 Work Experience
Tue 13-Fri 16 Jun	Year 7 Camp ~ Phillip Island
Wed 28 Jun	Debutante Ball
Fri 30 Jun	House Day ~ Athletics
Fri 30 Jun	Last day Term 2 ~ <i>early dismissal</i>
Mon 17 July	Day 1 Term 3

## 2017 Term Dates

Term 2	Tues 18 April - 30 June
School Vacation	01 July - 16 July
Term 3	17 July - 22 September
School Vacation	23 September - 08 October
Term 4	09 October - 22 December
School Vacation	23 December - 28 January 2018

# Dear Parents,

It has come to our attention that some students from Heatherwood are watching the Netflix series **13 Reasons Why**.

The series deals with the suicide of a 17 year old girl who leaves a series of tapes for her friends to listen to after her death. The reasons include bullying in various forms including cyberbullying, sexual assault and rape. Some scenes are very graphic.

The series is considered as dangerous by some organisations including 'headspace' (which is an organisation that deals with youth mental health).

Both the Department of Education and Training and 'headspace' have sent schools guidelines when speaking to students with questions about this series. Both organisations are concerned about the possible effect this series may have on the students.

In Protective Behaviours, we address issues including cyberbullying and physical bullying, and youth mental health.

In all classes, we have discussed proactive actions including –

- ◆ TELL someone
- ◆ get them to nominate five trusted people they could go to with concerns
- ◆ given them 'Kids Helpline' number 1800 55 1800
- ◆ given them the 'Lifeline' number 13 11 14
- ◆ referred them to 'headspace' counsellors
- ◆ referred them to the school psychologist

and more generally -

- ◆ strategies for developing positive and respectful social skills
- ◆ development of decision-making skills

At all times, if we have any concerns about the student/s, we always inform the parents of our concerns and offer possible strategies.

Unfortunately our students' live in a world where social media is a very important connection tool for them. **Parent supervision is always advised when students use social media.**

To ban students from using it will send them "underground" and they will find other ways to access it.

## Lesley Foster

Assistant Principal

Students across the school are being introduced to new skills in writing. Antonia Angelopoulos, (the Writing Model), has been working closely with students and staff to provide exciting changes to the school by improving English Writing Skills. She is teaching students to paint a picture, to imagine and enhance their writing. Simple sentences, such as 'Here comes the sun ...' are transformed by students into 'Here comes the sun ... and spreads like a virus in a computer.' 'Secrets and mysteries sink to the bottom of the ocean floor.' 'The dark grey clouds hang like puppets.' Students are very proud of developing their vocabulary, skills and their ideas into a format which captures the attention and imagination of others.

Anna is providing a formula to use vocabulary in different ways, to understand the many techniques that make writing exciting and how to make writing connect with others. The most wonderful part of this is the ideas the students have in their own minds and helping them to uncover these ideas.

We will be displaying the students' writing at the front office, so please look out for it.

Later in the year we will have a Showcase of students' work throughout the term from a number of classes.

Teachers are busy writing reports which will be sent home before the end of the term. We thank you for your support to the school and the many ways you assist us in helping your child learn.

Next Monday, 5 June, is a Heatherwood Curriculum Day, so no students will be attending school.

Our speaker is well known, Bryan Jeffrey, who will be speaking to us about trauma, so that as a staff, we can develop a better understanding of care, support and educational approaches for our community

## Asthma Awareness

Every Student diagnosed with Asthma should provide the school with an

### Asthma Action Plan

and carry reliever medicine so they can use it whenever they have Asthma symptoms.

However... if you find you need to use your reliever more than two days per week (*other than before exercise*) your Asthma may not be well controlled and you should see your Doctor.

- \* Relievers are fast acting medicines that give quick relief of Asthma symptoms
- \* This type of medicine is also used in Asthma first aid

## Junior School Update

Students have been enjoying their Term 2 topics for Humanities and Science.

Year 7 students have been learning about **Indigenous Australians** for Humanities and enjoying it. For Science Year 7 students are enjoying learning about **Solutions and Mixtures**.

Year 8 students have been learning about **Continuity and Change** in Australia. For Science Year 8 students are learning about **Motion**. They have been enjoying the experiments immensely. This term Year 8 students have also been enjoying their Shopping Excursions to Tunstall Square. This program focuses on developing independence, handling money, time management and social awareness in different settings.

**A friendly reminder that the Year 7 Camp to Phillip Island will take place *after* the Queens Birthday Public holiday.**

## Humanities 2017

This is the second year for the delivery of the Victorian Curriculum in Humanities with new resources introduced to the school.

In Term 1 the school celebrated **Harmony Day** with a Poster Competition showcasing Diversity and an inspiring talk from **Abdi Aden**, a Somali refugee whose book 'The Shining' tells his story of survival. Abdi arrived in Australia when he was 16. He is now a family man, youth worker and an author who has written an amazing book on his experiences. Abdi was motivational and inspirational and Heatherwood students asked great questions.

In Term 2, Heatherwood acknowledged ANZAC day with an assembly and the lowering of the Australian flag organised by Mr. Walker. Teacher Jason Kurfurst organised a wonderful display from the Cadets. Students from various groups wrote and presented speeches. The presentations were heart felt, spoken clearly and demonstrated the wonderful learning that has been happening in the classroom. Every student made a red, paper poppy to present in the School Memorial Garden.

The following week **The Shrine Outreach Program** visited the school presenting stories of World War I. The presenter, Carolyn Argent, presented a PowerPoint of authentic pictures and the students handled artefacts and dressed in authentic uniforms. This insight to ANZAC day, through the practical incursion, built students' knowledge and understanding of the ANZAC story.

Year 9 students visited the Shrine of Remembrance and attended workshops.

# Information

## **NDIS Information Session for families and carers**

This information session is designed to help people with disability, as well as their families and carers, get ready for the National Disability Insurance Scheme which will commence in your area from 1 November 2017.

The session will cover topics such as:

- What is the NDIS and how does it work?
- What kind of support can I access through the NDIS?
- Accessing the NDIS
- The roll out of NDIS in the Outer Eastern Melbourne area

These sessions will be delivered in partnership with the Department of Health and Human Services (DHHS), Yarra Ranges Shire, and LaTrobe Community Health Services (our community partner). This is an opportunity for you to bring your questions along and have them answered by staff members.

There are two sessions being offered.

### **The Memo**

235 Maroondah Highway Healesville 3777  
Thursday 8th June Session: 10:30am - 12pm

### **Box Hill Institute – Lilydale Campus**

LC Auditorium Building LB/LC 40-50  
Melba Ave Lilydale 3140  
Thursday 8th June Session: 6.30-8pm

To register your attendance for these sessions please visit:

[www.ndis.gov.au/news/events/vic.html](http://www.ndis.gov.au/news/events/vic.html)

# ANZAC DAY 2017

In April and early May, the Shrine Outreach Program visited Heatherwood School over three days.

Carolyn Argent presented an excellent display of war photos, dressing students up in AIF uniforms and looking at war memorabilia to give students an insight into the meaning and significance of ANZAC Day.

Heatherwood classes have participated in our annual Heatherwood ANZAC Day Ceremony with Heatherwood Cadets standing in formation at the flag pole and raising the flag during the playing of the "Rouse".

Some students visited the Shrine of Remembrance in the city and attended local ANZAC Day services.

Heatherwood teachers and students have participated in a wide variety of activities to further develop our awareness and understanding of the meaning and significance of ANZAC Day.

## Middle School

This term, I was fortunate to spend a week with the **Year 10's on Camp**. We stayed at Anglesea Valley Lodge situated in the Otway Ranges. The weather was cold but did not stop the students from participating in many fabulous activities that were offered. One of the highlights of the camp was spending a whole day doing water-based activities ranging across surfing, boogie boarding, rafting and canoeing. Mountain bike riding was enjoyed by all and lots of flora, fauna and natural terrain was appreciated during (*cont.*) bushwalking activities in the Great Otway National Park. Year 10 students came back having acquired new skills and met challenges; as well as a little 'heavier' from all the scrumptious food. On the

way home we stopped at the RAAF Museum at Point Cook for a brief visit and lunch. Overall, I think all students who attended had an enjoyable camp.

In a few weeks the Year 10's will start their **Work Experience**. Students will be placed in a variety of different work places and I hope the two weeks are a great learning and meaningful experience .

Year 9's are still enjoying their rotation of activities in the **Advance Program** in which they are involved each Thursday morning. The organisations we support on Thursday mornings are: Collingwood Farm, Warrandyte CFA, Meals on Wheels and the Cadets Program.

*Braham Morris*

## All Abilities Boot camp

With Elise Muller, a qualified Personal Trainer, Autism Advocate and Mentor with The I CAN Network.

### Location:

281 Colchester Rd, Kilsyth South VIC 3137

**When:** Sat or Sun @ 10.30am for 1 Hour

**Who:** Boys and Girls aged 10-19 years

All fitness levels and abilities welcome! Regardless of whether you are a boy or girl, find sports fun or challenging, are on the Spectrum or not... this is the fitness class for you!

- **Sensory friendly.** There will be no whistle blowing or yelling - purely motivation, encouragement and guidance.
- Sessions will be held on weekends at 10:30am and will go for an hour.
- Some weekends will be on a Saturday others will be on a Sunday. The diversity of a Saturday or Sunday sessions is to ensure accessibility to families with different availabilities.
- On school holidays sessions will run on a Tuesday. This has been planned to allow a 3-day recharge from the school term.
- Sessions will not run on public holidays

### What's to gain?

- Increased physical fitness
- Become stronger
- Improve your confidence
- Improved health
- Positive social interaction
- Improve coordination
- Improved health
- Improved gross motor skills

### What will happen in the 1-hour sessions?

- 5 min warm up game
- 30 min active exercise
- 20 minute team sport game (non-contact)
- 5 min stretching & cool down

### Payment:

Sessions will cost only \$15. Please bring the \$15 in an envelope with the participants name and place it in the Payment box on entry.

### What do I wear/bring?

The \$15 in an envelope & drink bottle

You may bring a yoga mat to exercise on (encouraged for participants with a sensory aversion to grass). Dress in comfortable fitness attire, such as shorts, leggings, t-shirt, or tank top. For your footwear please wear runners.

### Registration form:

<https://goo.gl/forms/ZMPpbMkLKyeqZG6p1>

# Digital Technology NEWS

So far this term we've been impressed by the creativity and skills of our students while working with digital media to plan and create images, movies and games to enjoy and share. Students in Years 8 and 9 are learning how much preparation, thought and effort goes into producing a short film of only 3-4 minutes. They've been developing great interpersonal, literacy and technical abilities in the process. Likewise, Year 10s are beginning to appreciate how much work, skill and tenacity goes into coding a simple game that works well. Below you'll see how our Year 7s have been working with photography techniques to thoughtfully compose their shots.

Fill the Frame: Zac (J3)

Colour: Neil (J2)

Rule of Thirds: Angie (J1)

## Parent Tip

The internet has revolutionised the way we access, use and share information. Countless benefits come from this development as a wealth of useful content is only a click or tap away... if you can navigate past the vast quantity of cat videos and other content designed to attract and distract. In order to gain the full benefit of the digital age, young people need to learn the skills of how to decide what content is useful and trustworthy and what is not so credible or even harmful. This development of their critical judgement takes time.

So this raises the question:

### *How do we protect young people from inappropriate, offensive or illegal content?*

As young people are able to access the internet in multiple ways and on a range of devices this can be a challenge. Students are at risk of exposure to content that contains violence, sexually explicit material, racism, sexism or content that promotes risky behaviour such as extreme dieting or drug taking.

It's important to discuss these risks and ways to avoid them while still enjoying the benefits of a connected society. At school we utilise filtering software that will block this content before it can be viewed. See the following link for information on filtering software that's available for use at home:

→ <https://esafety.gov.au/education-resources/parent/online-safeguards/filtering-software>

While filtering services go some way to restricting access to potentially damaging content, we know that outside of school students have access to multiple devices and some of these may not be filtered. As always, discussing ways that your young person can be a safe, responsible and ethical technology user is vitally important in helping them develop healthy and balanced attitudes and habits.

## Heide Museum of Modern Art

On Monday 15 May, Year 10 students, and some teachers from Heatherwood School, visited Heide Museum of Modern Art with Margaret, who was replacing our Art teacher for a while.

We drove on buses from school and as we arrived we could already see some sculptures. The trees were amazing; the way they looked were so interesting. Some of the trees were growing in weird ways and one of them, the *scar tree*, had a hole in the side of it where the Aboriginals made a canoe.

Soon after, we walked to HEIDE I AREA and Margaret told us about John and Sunday Reed and about their many, many cats. We ate there and started walking to HEIDE II AREA, then after we walked to HEIDE III AREA.

II & III were galleries and Heide I was where John and Sunday lived. When we arrived at Heide III, we were given some paper, cardboard and some paper magic clay to use to draw and sculpt with inspiration from Heide. I did not have any inspiration; I just drew on what was on my mind - *a princess chained to her throne; trapped - to be what she is told to be.*

After lunch, we were being shown the gardens and walked around looking at the plants there. The gardener, who was giving us a bit of a tour, showed us the *heart* of the garden. She said Sunday was very upset at one point with much heartache and made this garden to remember.

I thought it was a beautiful place and I think I would be going there more often.

**by Amelia Orchard M7**

## Austin Healey Factory

**On Friday 12 May, we were lucky enough to go to the Austin Healey Factory in Mitcham.**

**At the factory, we looked at old cars being restored and in the showroom at the cars for sale. We were having too much fun and time ran out; we had to go back to school.**

**I would like to thank Braham and Ewan for taking us to the Austin Healey Factory and to Andrew for taking us around the factory.**

**by Robert Weller**

### SRC News

#### FUNDRAISER

Thank you to parents, carers, students and staff for making our Juvenile Diabetes Fundraiser such a success! We raised \$254 for this worthy cause.

#### SPECIAL GUEST

Selected SRC students will be hosting a luncheon for Member of Parliament Mr. Ryan Smith, in the House, on Thursday June 1st. Ryan is coming along to talk about leadership with Heatherwood SRC. There will be more about this, after the event.

#### STUDENT INTRANET

Heatherwood SRC students are encouraged to read the student intranet as it has all the news about what is happening in our school. The student intranet contains messages from our student leaders and dates for important events. Thank you to Harry (IT tech) for setting this up for students.

### Horticulture

Students have been busy harvesting **raspberries, rhubarb, bok choy** and **lettuces** for use in the kitchens. They have also enjoyed tasting them straight off the canes.

New raised garden beds have been constructed and two compost bins installed in the one closest to the compost area. This will stop vermin from eating the food scraps.

The **cabbages, cauliflowers** and **broccoli** in the wooden boxes are growing well and will be ready to harvest towards the end of this term or early Term 3.

Some of this wonderful produce will be given to Doncare to assist in their programs.

**doncare**

# HOOR TIPS WITH WIRE

## Science

### Year 7: Solutions and Mixtures

The Year 7 students are honing their skills on writing scientific reports, while conducting simple solution experiments. They are learning to ask the BIG question; think of a hypothesis and how they will conduct the experiment. Later they record their observations and make conclusions about what they have seen and if their hypothesis was correct! One of the more interesting experiments dealt with *oils and water mixing*. The most interesting find was the effect of eucalyptus oil being added to water. Instead of 'bubbling' on top of the water as the olive oil did, the eucalyptus oil dispersed through the water changing in to a milky colour! WOW

### Year 8: Energy

Energy is defined as the *ability to do work*. Students have gained an understanding of *potential* and *kinetic* energy. They

have demonstrated this in many ways; the most fun, and at the same time most frustrating method, was our Domino Challenge.

Who could make the longest line? Patience was a skill discovered in this lesson. We did capture on video many successful attempts!

### Year 9: Microorganisms

This tiny world can only really be appreciated through the lens of a microscope. Year 9 students will be looking at three groups of these tiny organisms; fungi, bacteria and viruses. So far we have looked at *good* and *bad* bacteria and how each type of microorganism works. Students have become aware how important **personal hygiene** is, especially around cold and flu season. There has been a lot of chatter on hand washing - one of the main ways diseases are spread.

### Year 10: Chemical Reactions

The Year 10s have been exploring chemical reactions in a yummy way. They have been making honeycomb, caramel and Chinese steam buns (just to name a few) in order to see how chemical reactions take place in the kitchen.

For example, table sugar is made up of carbon, hydrogen and oxygen, ( $C_{12}H_{22}O_{11}$ ). When you apply heat (up to 160 Celsius), glucose and fructose are produced and water occurs as a by-product evaporating, as steam. If the heating process was too continue... the sugar would eventually turn into **solid carbon!**

# PE & SPORTS NEWS

## *Interscholar Cross Country (Friday 19 May at Duncan Mackinnon Reserve, Murrumbidgee)*

Heatherwood School team of 30 students proudly competed at the South-East Special Schools Cross Country. There were 11 Special Schools competing with a total of 250 competitors from primary to secondary. All Heatherwood School students completed in the 3km races and performed their best, showing excellence in persistence and good sportsmanship.

The SSSSA Cross Country is in partnership with the Glenhantly Athletics Club whom provide club volunteers to assist each year in this fantastic event. We are very thankful for these volunteers and without them the event may not be able to run. On behalf of the staff & students, we are very grateful to the supportive Glenhantly Athletics Club. Trevor Vincent who head the team of volunteers from Glenhantly Athletics club who has such a passion to see our students competing at their best each year. Trevor is a former Commonwealth Games competitor who won Gold in the 1962 Commonwealth Games in Perth, WA in the 3km steeplechase runner and a competitor who represented Australia in the 1964 Summer Olympics, Japan. We are very lucky to have his expertise.

## **Once again, congratulations to the 2017 Heatherwood Cross Country team.**

### **PE and Sport Reminder**

If you sick or injured and unable to participate in Physical Education sessions, please provide a written note to be handed to the PE Teacher at the class. Please include whether the student can participate in any form of physical active and/or what activity needs to be restricted.

Note variations:

- Note can be emailed directly to myself [ditty.samantha.s@edumail.vic.gov.au](mailto:ditty.samantha.s@edumail.vic.gov.au) or the school account [heatherwood.sch@edumail.vic.gov.au](mailto:heatherwood.sch@edumail.vic.gov.au)
- Note can be written in the diary whereby the diary will come with the student to the class
- Note can be written on a separate piece of paper where the students can give bring the note to class

It is important that the teacher in charge of the session sights the note to best care for your child during these sessions.
